

TRAFFORD FAIRTRADE GUIDE 2010

Where to buy fairly traded products locally

Fairtrade ensures basic rights for producers by offering fair and guaranteed prices and encouraging long-term trading commitments.

It means that nearly eight million farmers, workers, craftspeople and small-scale producers are now getting a better deal in return for their hard labour.

Making the positive choice of buying fairly traded and locally produced food, clothes and craft items is a simple way of improving people's prospects and you get the quality you want!

We aim to update this Guide regularly.
